Today, the agricultural sector in Konkan has become more and more prosperous and the benefits of the government's climate agriculture scheme have increased exponentially. Along with the traditional agriculture, today's agricultural sector is expanding into horticultural crops such as mango, cashew, and coconut. The same pattern can be seen today in Mirash Rajya Abba, which is very important in the production of work.

If there is a demand for the Aba quota, the Aba will be a cash crop for foreign exchange. Under this quota, there will be 4.85 lakh kgs and the production will be 12.12 lakh kg. Agsar A.I

Today's success story should be done in order to achieve success. Hirabai Miadav Kor, without turning the heat of the past century, did not change the agricultural sector a little bit, but by intensively planting 280 mango trees at 0.70 per square meter, an ideal Hanam kla and other crops of the same size, we (agricultural sector.)

What is Mahatma Gandhi National Employment Guarantee Scheme??

In the state of Mirash, for the first time, the Mirash Employment Act was enacted in 1977 as a scheme for employment in the state. Under this scheme, the government will provide employment to the unskilled workers. The name of the employment scheme will be changed to Mitama Gadhi National Rural Employment Scheme. Under this scheme, the government will provide 100 days of husband and family employment and 100 days of husband and family wages. The State Government bears the financial burden of the monthly salary of 100 per day for the employee. The old age benefit scheme is implemented on the basis of pension scheme in accordance with Section 12 (e) of the Employment Act, 1977. E.g. Orchard Plantation Scheme under the Miatma Gadhi National Rural Employment Scheme.

m. sing Ro. d. Yo. Atangat Orchard Plantation Scheme is being carried out free of cost to farmers, in which they are given a benefit of 100 kg per annum by providing soil for planting orchards.

m. sing Ro. h. Yo. Documenting the effort to plant an intimate orchard:E

- Job Card

Mango crop in the landscape

Importance of Aba Napaka

Mango is the national fruit of India. About 4,000 hectares of mangoes are cultivated under cultivation and 4.85 lakh hectares are under cultivation, yielding 12.12 lakh tonnes.

the land

Medium to heavy husband, 1.5 to 2.0 m. A deep, watery orange.

Sadhunarat caste and hybrid caste:

Pasu, Ksar, Ratna, Sadh, Konkan Rachi, Konkan Raja, Savun, Sama, Piiri, Laganda, Vanraj

Create an amazing plant

Abhavadi of Abyan in Paranaarak Padati is converted from Koyapasna. No clause, Madrikushath Kalam, Karihnyar Kalam is done by removing the subordinate clause.

Cultivation

10 X 10 m in heavy soil 9 X

9 m in medium soil 5 X 5

m intensive planting

1 X 1 X 1 m. Coarse coarse compost (40-50 ha) + Poya soil + Sasgal

Sapur Forp (2 ha) filled with humus.

Fertilizers

15 ha of camphor fertilizer, 150 gm of manure, 50 gm of rufurd and 100 gm of palash should be dug for each tree during monsoon season. 50 kg of compost, 1.5 kg of poison, 500 gm of fertilizer and 1 ha of Palash per month should be applied to the 10-year-old plant.

Palm age and installation

If water is available, 3-4 waterings after fruit set.

inwardly ripe

Abba Bagat has 10 varieties of vegetables, dates, sugarcane, tea, jute and hapak.

Fruit extract

14 and (85%) ripe mangoes should be removed. This fruit has a reddish color because the color of the fruit is similar to that of a diamond, and the deep part of the fruit is formed near the tooth. The air density of this fruit should be 1.02 to 1.04. Harvesting of fruits should be done along with stalks. The fruits should be harvested early in the morning and should be harvested at this time.

the rudder

> 350 gm, 300-351 gm, 251 gm, 300 gm and 250 gm pakka less

The weight should be such a rudder. Patwari Jalayavar Fruit 500 ppm Kabandaknazm (0.5 gm Kabandaknazm in 1 hl of water) 10 humms of tea. The rate of fruit rotting after harvesting is low in the field, and the fruit rots in the sand box under the wing.

Pest and disease control

every now and then:- Haplal and Panu Ghalall Tedutdu Kowali Paan, Moor and Small Fruits Dattanu Absorbs juice. The yellow leaves are falling, the leaves are soft, and the pears are falling. Its small planks fall off. Around the peacock, the feet of Tadutdu can be felt. For the purpose of rooting, the garden should be rotted with such ripe leaves.

Dimetho 30 EC (10 sprays/10 L) or Mehnohathan (50 EC (10 sprays/10 L)) should be applied every now and then to control the surrounding garden.

The key should be sprayed.

Namjamashi:- Hamjamashi on young palm leaves, leaf stalks, pear leaves On the middle stage, the hairs of the molluscs are blocked and the molluscs of the molluscs are attached to the inside of the molluscs. They form a fine, puffy black nodule. And Tyamalu

Palvi and Peacock tax. For the control of Hamjamashi on Janu Jalumaidhil Palvi during rainy season, open water Dimetho 30 EC (10 attacks/10 L) or Mahnohatthan (50 EC (10 attacks/10 L)) spray. The Bhakuri of Parahaththan should be placed in it.

to Fullan:- The lower edge of the flower-hicked leaf scrapes the stems and flowers of the plant. The color of the leaf becomes gray as the upper side of the leaf turns. Moor Tabansu falls and does not bear fruit. The peel of the fruit is scraped and the juice extracted. Noriber of Phulhakadi – February Month Dimetho 30 E.C (10ml/10 L) Sakwa Phozlon 35 E.C. (10 attacks/ 10 l) should be sprayed with this herbicide. Mango fruit should be sprayed with the insecticide Thiamthoxam 25 WG (2gm/10l) with the juice relax and (2.5mg/10l) and then if required. **fruit fly:-** While in the process of picking the fruit, the female nests in the bark of the fruit The larvae hatched from them survive on the soil. In order to harvest honey, the infested fruits should be destroyed. The ground under the tree should be cleared. Work traps should be used. disease

filled up:- Pear and unripe fruit throat. Diseased leaf for honey, Pear not. should be done First spray of 0.2% sulfur should be done. Dosuri spraying of 0.1% Hudnokp at 15 days.

Diabka:- Diseased leaves start to dry up. Hanarogi for Hanayishanna The graft should be selected. 3 inches of diseased branches should be examined. Then spray with 0.3% thoxychloride.

पावस: रत्नागिरी तालुक्यातील गावखडी येथे आंबा कलमांच्या भागाला भेट देऊन पाहणी करताना जिल्हाधिकारी पाटील सोबत कृषी विभागाचे अधिकारी.

आंबा बागेस डॉ. पाटील यांची भेट

पावस : रत्नागिरी जिल्ह्याचे जिल्हाधिकारी डॉ. बी. एन. पाटील यांनी गावखडी येथील हिराबाई कोरे व वायंगणी येथील सोमनाथ लिंगायत यांच्या महात्मा गांधी राष्ट्रीय ग्रामीण रोजगार हमी योजनेअंतर्गत केलेल्या २०२१-२२ आंबा प्लॉटला भेट दिली तसेच शेतकऱ्यांना मार्गदर्शन केले. यावेळी रत्नागिरी तालुका कृषी अधिकारी विनोद हेगडे, मंडल कृषी अधिकारी माधव बापट, कृ. स. ज्ञानेश्वर राऊत, धनाजी पोळ, योगेश पवार, तलाठी उपस्थित होते.

Occult

I Hirabai Midav Kor, M.U Sala B.U, T. Udgir, Hajj. Latru, the resident of this place will be a professional work assistant. Tamils tried to seize land in Konkan.

The king of the fruits, the king of the fruit, is from the retribution movement. Mandal Agriculture Officer, Paus Shi. Bap Saibani told me that I would like to cultivate the coal. sing Ro. d. Yo. He also gave detailed information about Atangat Orchard Plantation Scheme including its benefits. Gavkhadi's agricultural assistant advised me about collecting my job card but the rest of the documents. D. D. Raut resolved any disputes related to his class with the officers/commissioners of the Agriculture Department. I am very thankful to the Department of Agriculture for reducing the labor of land preparation, digging, planting etc.

I am very happy to inform you that for the year 2021-22 my apple planting party Mr. Hajliahdhakari, Dr. Ratanahgari. B. N. Pil Saib, Konkan Krihi Bhawan, Mumbai and Mr. Deputy Executive Officer Sheem. Many people like Raja Lakmi Yerpadu have given their advice and should take part in the Hawandi scheme which is being implemented for free in Hawanti and Agri Hawabhag and make use of their potential.

thank you

In conclusion

Thank you Navshi

Shi. Nanaji Padanrug Bhoje Sahbe

Hon. Taluka Agriculture Officer, Ratnahagari
